## ALL ARE ENTHUSED

Over the Intelligencer's Proposal to Celebrate the Fourth

IN TRUE, ROYAL COLUMBIAN STYLE.

Let's have a One-Day Little World's Fair of our own, is the Cry—Ring the Bells, and Fire the Guns, and Fling the Starry Banners out—Good Suggestions by Prominent People who Endorse the Idea Heartily—Approval over the River.

The suggestion in yesterday morning's INTELLIGENCER, in the editorial columns, that the Fourth of July in this, the Columbian year, be celebrated as it never was celebrated before in Wheeling, and that her neighbors be invited to come and see it done, met with instant response of the heartiest character from every public spirited citizen.

A number of representative men were seen by reporters yesterday, but of course time did not permit of seeing all, or even a majority. Still, enough were talked to to feel the public pulse, and the result justifies the assertion that the people are for the Columbian celebration of Independence Day.

It is a matter of common remark that Wheeling has too few such celebrations, too few attractions to bring her neighbors into her borders and show them how good a place the city is to visit.

Among the expressions heard yesterday were the following:

President Quarrier, of the chamber of commerce, was asked what he thought about the suggestions made in the article. He said they impressed him favorably. He was for anything that livened up the town and brought people in, if even for only a day.

"I am in favor of it, and will do all I can to help the scheme along. Let's have a world's fair of our own for one day. I will call a meeting of the chamber of commerce whenever the time seems ripe to do so. You may put me down in favor of anything that is to the advantage of the old town. The chamber ought to have a meeting soon, anyhow, as there are several important matters to consider."

Mr. Howard Hazlett, secretary of the chamber of commerce, was also enthusiastically in favor of the proposed celebration, and gave hearty assurances that he would co-operate in any way he could to make it a success.

Mayor Caldwell said he was in favor of anything of the kind. The best thing, probably, that Wheeling could do, would be to get up a celebration that would bring in the people of the locality. Anything he could contribute to its success, either officially or personally, he would be glad to do.

Postmaster Cowden—I think that is a very good suggestion. The Fourth is always observed in Wheeling as a holiday, but generally by private picnics and picnics at the public resorts. I think it would be far better for all to stay at home and join with people from the surrounding towns in one big celebration of an appropriate character.

Mr. Hugo Loos—I read the editorial you refer to with considerable care, and I hope you will work it up. It is an admirable idea, and the celebration need not cost much—the fire works and music would be about all the necessary expense. All the societies would be glad to turn out. The town is too dull and dry; let's liven it up once. The chamber of commerce is the proper body to have charge, and the committee ought not to be too large, but made up of men who understand such things.

H. P. McGregor—That's a first rate idea.

Justice George Arkle said he thought it a good scheme; such gatherings advertise the town and help business very much. He would like to see the celebration a go.

H. W. McLure—It's all right. I hope it will succeed.

Sam B. Harrison—I am in favor of that. It's an elegant scheme. Let them do away with picnics for one year and let's show our patriotism. Decorate up and look gay for once.

Col. William Exley—I'm for it. Put out the flags and banners and paint her red.

Mr. P. B. Dobbins—It is a good thing to do if the cost can be kept within modest bounds.

A number of South Side business men were seen by INTELLIGENCER reporters yesterday afternoon and the unanimous opinion and sentiment was that the idea is a good one and should not be allowed to drop.

Mr. E. M. Richards, of Richards & McElroy, though just mounting his bicycle for a trip up-town, found time to say that the scheme meets his hearty approval. He was glad to see a movement on foot which will keep Wheeling people at home on the glorious Fourth and at the same time bring thousands of strangers here.

Mr. S. L. Brice considered the proposal an excellent one, and was enthusiastically in favor of it. "Wheeling has for years been very backward in a proper observance of this greatest of national holidays, while other places of not nearly so many attractions have been at the fore and reaped the benefits of such celebrations. I think the Fourth should be celebrated for another reason; for the lessons of patriotism it teaches. I think the celebration will bring thousands of people to the city, and be a big success."

Mr. Henry Schmeibach, when asked to give an expression as to the proposed celebration, said briefly but pointedly that he was heartily in favor of it, and considered the idea of putting its management in the hands of the chamber of commerce wise; that would give it a tone and standing it could get from no other source.

"I think the idea of a fitting celebration of the Fourth of July in Wheeling this great Columbian year, will meet with the unanimous approbation of our people," said John Coleman, of Chapline street. "I am certainly for it."

After reading the INTELLIGENCER editorial on the subject, Councilman Will Irwin said: "That's a fine thing, and meets my hearty approval. Even though Wheeling has been lax in the proper observance of this holiday in the past, it ought surely to be celebrated with splendor and pomp this year. Hope it will go through booming."

Druggist Menckemiller, of South Market street, considered the proposal a very good one. "I am glad to see an effort is being made to get up a fitting celebration, and I am sure it will be a magnificent success. The Columbian celebration last fall showed that when Wheeling people take hold of anything earnestly it is sure to be a success; this will be no exception to the rule."

Mr. William Ellingham, a well known wholesale grocer—that is a very good idea, if you mean to make it a citizens' parade and celebration, everybody joining in, with an address and

music in the afternoon and fireworks at night. I hope the idea will meet with general favor.

These remarks given are but fair samples of perhaps twice as many heard by reporters. Everybody seen endorsed the INTELLIGENCER's suggestions more or less heartily, and it is evident enough interest in the matter exists to assure the success of the proposed celebration.

Martin's Ferry people think that the editorial in yesterday's INTELLIGENCER suggesting that Wheeling should have a rousing big Columbian Fourth of July celebration was full of good sense and that the scheme should be successfully carried out. The suggestion meets with approval on that side of the river, and Martin's Ferry, at least, will do her share to help make the celebration a memorable one. When the Columbian parade was given in Wheeling about one-half of the people of Martin's Ferry went over, and many more would go on "the Fourth," it being a holiday. Said one Martin's Ferry man: "The people of Wheeling should take up the matter at once and make the eagle scream as never before."

Word comes from Bellaire and Bridgeport that the people of those towns are favorable to the proposed celebration.

Tobacco in Eastern Ohio.

A gentleman from over the river said yesterday that two Noble county farmers, William Watson and Charles Shankland, raised tobacco last year, the former four acres and the latter one acre, and they realized \$200 per acre for the crop. This is about four times as much as the land is worth. It is a wonder all of Noble county isn't planted in tobacco this year.

Checked—the progress of Consumption. It's cured, too, if it's taken in time. What is needed is the one unfailing remedy for Consumption in all its forms—for one of those forms (Lung Consumption) is Consumption.

Purify your blood—that's the first thing. Rid it of the taints and poisons that make it easy for this dreaded disease to fasten its hold. Then if you haven't delayed too long, you can be cured. From beginning to end, the remedy is Dr. Pierce's Golden Medical Discovery. It's the most potent blood-cleanser, strength-restorer, and flesh-builder known to medical science. Consumption, and every form of Scrofula and blood-taint, all yield to it. For Weak Lungs, Spitting of Blood, Bronchitis, Asthma, and all severe, lingering Coughs, it's an unequalled remedy—and the only one for the Blood and Lungs that's guaranteed. If it doesn't benefit or cure, in every case, you have your money back.
